Workplace Health & Safety Policy

Shep's Engine Reconditioning, is totally committed to providing and maintaining a safe and healthy working environment.

There can be no compromise with safety and accident prevention in the workplace, this is the commitment we give to our customers and is expected from our employee's.

The goal is to prevent the occurrence of any injury, illness or dangerous event that would cause a hazard the health and safety in our workplace. Where practicable such possibilities will be eliminated, in areas this is not practicable they will be positively managed.

All employees will be trained to perform their job safely. Each employee will be personally responsible for working in a safe manner, following safety rules and procedures. Everyone will assist in maintaining a safe and healthy workplace by identifying health and safety issues and reporting these to management.

This policy is a vital part of our management plan and our goal is to have ZERO injuries to both staff and members of the public within our workplace.

This will be achieved through consultation co-operation and participation by all.
